

Your counter's billing, finally speaking its language.

One app for billing, kitchen tickets, and reports – bilingual in English and Tamil, right down to the printed bill. Runs on the phone or PC already sitting at your counter.

 Prints in Tamil

 Works on Android phones

 GST-ready billing

 Auto-applying discounts

WHY OWNERS SWITCH

Built around how a Tamil Nadu counter actually runs

Every feature below is live in the app today — not a roadmap promise.

Tamil on the paper bill, not just the screen

Most billing software only shows Tamil on-screen. Item names print correctly in Tamil on the customer's bill and the kitchen ticket — no garbled characters.

Print from whatever's at the counter

Bills and kitchen tickets print straight from a counter PC, a tablet, or your cashier's own Android phone — no special drivers, no dedicated hardware.

GST shown the way customers expect

CGST and SGST always print as two separate lines with Indian-style ₹ formatting — no merged "GST" line that makes a customer double-check.

Offers apply themselves

Set a festival offer or item discount once — it applies automatically at billing. No cashier math, no under- or over-discounting at the till.

Know who's actually selling

Waiter and cashier incentive tracking is built in, with a ready-made payout worksheet — no separate spreadsheet at month-end.

Tolerant of patchy WiFi

Orders save as staff enter them, so a weak signal at the till doesn't cost you a held bill or a lost ticket to the kitchen.

WHAT'S INSIDE

Everything from the first order to the closing report

Counter & Kitchen

- ✓ Desktop, tablet & mobile billing screens
- ✓ Kitchen Order Tickets, on-screen or printed
- ✓ Table & seating-section management
- ✓ Split billing for multiple customers, one table
- ✓ Hold & recall any bill
- ✓ Split payment — Cash, UPI, Card, any mix

Menu & Money

- ✓ Bilingual item & category master
- ✓ Photo-backed top-selling quick tiles
- ✓ Auto-applying flat, item & coupon discounts
- ✓ Multi-rate CGST/SGST, per-item override
- ✓ Low-stock alerts on POS & kitchen screen
- ✓ UPI QR on the bill — only when UPI is used

Staff & Reports

- ✓ Waiter & cashier incentive tracking
- ✓ Bill History — search by table, waiter, cashier
- ✓ Sales, item, category & tax reports
- ✓ Daily Z-report / shift close
- ✓ Multi-location dashboard & comparison
- ✓ Full audit log on discounts & overrides
